

Power II™ Inversion Table

For the ultimate inversion experience, look to the Teeter Hang Ups Power II Inversion Table, a deluxe motorized option that operates at the push of a button. The patented motor design will smoothly and easily rotate you to any desired angle, including full inversion. Relaxing on the Power II for just a few minutes a day, you can experience relief of back pain, improved posture through better alignment, enhanced circulation and reduced stress. When you want a natural, in-home solution for a healthier back, try inversion – if you value quality, look to Teeter Hang Ups.

Medical Certifications: Backed by independent certification to the strictest standards available, Teeter Hang Ups motorized inversion tables are UL Listed 1647 for motor operated exercise machines.

Warranty and Guarantees: Teeter Hang Ups two-year warranty exceeds industry standards and is one of the few inversion tables with a 30-day money back guarantee, which allows you to personally evaluate the quality and effectiveness of the unit.

Specialized Features: The Teeter Hang Ups Power II™ Inversion Table represents the top motorized residential-grade inversion equipment, offering more specialized features than any other brand:

- **Push-button control** makes the Power II the most user-friendly inversion table on the market; the motor-powered design is unlike other home-use inversion products because it requires no adjustments for user height or weight
- **Full inversion option:** the only motorized table capable of full inversion that stops at every rotational angle thanks to patented interlocking gears
- **Convenient hand grips** provide support for mounting and can be used as a “traction handle” for additional stretching and decompression while inverted
- **Non-skid floor guards** reduce sliding on hard surfaces and protect floors
- **Optional accessories:** Teeter Hang Ups offers the *only* motorized inversion tables on the market that can be modified with accessories:
 - Gravity Boots - provide maximum comfort and support for the ankles. Order the Adapter Kit, which comes complete with Gravity Boots and CV Bar for converting the inversion table
- **Quick and easy assembly:** No bolts, no screws – simply attach the legs, main shaft and handles
- **Value-added materials:** Laminated Owner’s Manual comes attached to the unit; 90-page book on inversion
- **High quality finishes:** scratch-resistant powder coating and triple-plated chrome

Also available in silver

- **Curved front ankle clamps** for greater comfort and security
- **Manual control:** Back-up rotation option in the event of power failure
